

# **CashBack Token (CBT)**

**Turn Your Expenses Into Income**  
Built on the TON Blockchain

## Abstract

**CashBack Token (CBT)** is an innovative cryptocurrency built on the **TON blockchain**, designed to return funds to users for their everyday spending and activity. What makes CBT unique is that it not only helps users get part of their money back but also offers the opportunity to **earn** through price dynamics.

CBT tokens are distributed to participants who actively contribute to the development of partner platforms. Partner lists are published in the official Telegram chat:
