

CashBack Token (CBT)

2023

Abstract: CashBack Token (CBT) is an innovative cryptocurrency token developed on the TON blockchain, designed to return funds to users for their expenses. The uniqueness of CBT is that the token is distributed to everyone who provides screenshots of purchase receipts to the official Telegram chat CBT (airdrop) <https://t.me/cashbacktoken> Users have the opportunity to exchange accumulated tokens for other digital assets with liquidity and participate in programs holding, farming and staking.

Token address:

Bounceable: EQCKACJaXZ2ifG1m3NMv-H2b7fuEmX5Xcd1bIEvbdNUoKTdv

Raw: 0:8a00225a5d9da27c6d66dcd32ff87d9bedfb84997e5771dd5b944bdb74d52829

Token name: CashBack Token – 11/30/2023

Token Ticker: CBT

1. Introduction

1.1 Purpose of creation

CashBack Token (CBT) is the first token to unite an active community of decentralized financial ecosystems.

1.2 Operating principle

Based on the TON blockchain, ensuring reliability and transparency of operation.

1.3 Benefits of CBT

CBT has all the properties of the TON cryptocurrency thanks to decentralization and interaction with exchanges, which allows it to effectively interact with the entire TON ecosystem and beyond.

2. Refund program

2.1 Conditions of participation

To participate in the refund program:

Join the official Telegram chat <https://t.me/cashbacktoken>.

Provide screenshots of purchase receipts in chat.

2.2 Accrual mechanism (airdrop)

After providing screenshots of receipts in the official chat, your CBT tokens will be credited to your balance in the xJetSwap bot wallet.

2.3 Exchange of CBT for other assets

Accumulated CBT tokens can be exchanged for other digital assets using the established exchange rate on decentralized exchanges.

3. Participation in holding, farming, and staking programs

3.1 Benefits of participation

By participating in the Holding, Farming and Staking programs, you receive:

Opportunity for additional income and development of your knowledge.

Gaining experience working with digital assets on decentralized financial platforms.

3.2 Conditions of participation

To participate in programs:

Accumulate enough CBT tokens: This serves as seed capital for joining exchange programs and other opportunities.

3.3 Program overview

Exchange for tokens with liquidity of other cryptocurrency projects: Exchange your CBT tokens for tokens with liquidity provided by our partners on the decentralized exchange (dedust.io, ston.fi).

4. Participation in exchange programs and creation of liquidity pairs

All token holders can participate in exchange programs: Participate in exchange programs and create liquidity pairs with the CBT token. These steps provide CBT token holders with the opportunity to not only earn additional income, but also actively participate in decentralized financial instruments throughout the TON ecosystem.

5. CBT token distribution

The CBT ecosystem on the TON blockchain is a unique economic model with the CashBack Token (CBT). With a total supply of 10,000,000,000 tokens, distribution is as follows:

4,000,000,000 tokens – 40% ICO.

Address: UQBSGgFVHSGtv0ktUKJMErnIntjMV1oHUjyta8z6x1kbcacL

4,500,000,000 tokens - 45% Listing on exchanges, payments to holders, bonuses, staking programs.

Address: UQBbyErISZdWMCIHjJDSSig3BKW5Axocu7imk843l2kg5ccW

1,000,000,000 tokens - 10% Marketing, team and founders.

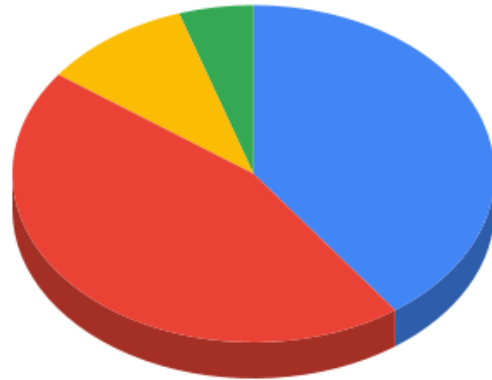

Address: UQCYB7-htlvOGCKyn_6LWHONARf76rIVIZNwPHtJYjfnLGGz

500,000,000 tokens - 5% Reserve Fund.

Distribution of CBT tokens

10,000,000,000 supply

- 40 % ICO
- 45% listing on exchanges, payments to holders,
- 10% Marketing, team and founders
- 5% reserve

Conclusion

CashBack Token is a new stage in the development of cryptocurrencies, providing users with the opportunity to receive real benefits for your financial transactions. Thanks to a unique refund program and participation in holding, farming and staking, CBT opens up new prospects for users of the TON blockchain. The possibility of additional income and development of your knowledge, as well as gaining experience in working with digital assets on decentralized financial platforms, is an integral part of the modern rapidly changing world and increasing the guarantees of your financial independence.
